

DIRECTIONS

- 1) Teacher will place cards up around the room.
- 2) Students will walk the room and stop at each card.
- 3) Students will count the first type of animal, count the second type of animal, and count them all together.
- 4) Optional: There are 2 different types of recording sheets to choose from depending on your students needs/ability levels.
 - Version 1: Students will write the number of the first animals, then write the number of the second animals, and then add the two numbers to show the total number of animals
 - Version 2: Students will have a modeled addition sentence to see and they will record the number to show the answer.

QUICK DIFFERENTIATION

KIDS THAT NEED A CHALLENGE:

- 1) Have students use the Version 1 recording sheet.
- 2) Have them write an subtraction sentence that would go with the addition sentence. (Ex: $3-1=2$ and $1+2=3$)

KIDS THAT NEED A REVIEW:

- 1) Have students use Version 2 recording sheet.
- 2) Pull the students in a small group and talk about how you start with each part, then count them all together to add them all together.
